

Package: SIAModules (via r-universe)

February 22, 2025

Type Package

Title Modules for 'ShinyItemAnalysis'

Version 0.1.1

Date 2024-04-23

Description Package including additional modules for interactive 'ShinyItemAnalysis' application for the psychometric analysis of educational tests, psychological assessments, health-related and other types of multi-item measurements, or ratings from multiple raters.

License GPL-3

URL <https://www.ShinyItemAnalysis.org>

Depends R (>= 3.5.0)

Imports cli, difNLR, dplyr, DT, forcats, ggplot2, glue, lme4, magrittr, mirt, mirtCAT, plotly, purrr, rlang, scales, shiny, ShinyItemAnalysis (>= 1.5.0), shinyjs, stringr, tibble, tidyr, yaml

Encoding UTF-8

RoxygenNote 7.3.1

Roxygen list(markdown = TRUE)

Config/ShinyItemAnalysis/module true

NeedsCompilation no

read_me	<i>How to use this package</i>
---------	--------------------------------

Description

Prints information on how to use the modules included in the package. You may have already seen the same information when loading the package.

Usage

```
read_me()
```

Details

The printed message also displays hyperlinks to each module's help page, where you can find more detailed information, including the citation entry.

Note that if your console does not support hyperlinks, modules titles will be accompanied by a regular R code you may paste into your console to arrive at the same help page.

Value

An object of class `siamod_readme`. Called for side effects.

Examples

```
read_me()
```

sm_cat

Interactive Module for Computerized Adaptive Tests

Description

Interactive illustration of computerized adaptive test (CAT) with the mirtCAT package.
